The people of Kansas residing on the border are not only excited but mad. The government afferds no protection, and the Kansas toops who are need to border warfare, are in Miss salppi. Every body interested in having the State protected from those robbers, express their desire in words for the return of Col. Jennison's gold regiment, the 7th Kansas. This regiment is made up in part of the men who feasts the border ruillans neder "old John Brown" and Geo. Lane in '56 and '57, and understand guerilla warfare. There are many rumors and reports on subjects interesting to your readers, if true, but as I propose to send you only authenticated facts, I say no hing about them.

The time and altention of the secretary of war is evidently and naturally so much engressed with the movements of our greatermy, that promps action can hardly be expected in case of any disturbances on our irontier. After more than two weeks from the time of the massacre, Minnesota was yet without sufficient arms, and applied to us for sid. I trust and tope that no such disturbances will arise in our State, but the surest made of avoiding danger is to prepared for it. We should become familiar with the thought in the present condition of our country we must become a warlike people; every community should be prepared to defend itself. not sufficiently to send to the hospital.

AN EFFECTIVE ORGANIZATION OF THE MILITIA.

To be able then promptly to answer future calls of the general government for troops; to be able to send into the field men was know at least the rudiments of drill and how to use a gun; to be able to defend our own firewides against attacks and invasion, our State should have an effective organization of the militia, and a sufficient supply of arms and ammunition, and should have it now. Our present laws are insufficient for this purpose; they were not made for such times or emergencies; our supply of arms is to small and for emmunision we have to rely on the Government at Washington.

Perhaps circunystances will not permit you to-cat at the present time, an entirely new and well digneted militia law, provision be made for the inmediate organization, the necessary drill—and the calling into active service in case of necessity of the mill is of our Sake; that provision be made for drafting militia in the purchase of the increased present and for the purchase of the increased present on the legislature. A military obserd or commission might, however, be created with instructions to prepare a complete militia system to be laid before the next legislature. Sufficient, and in might be satopted as a basis.

Olytho The soldiers A Right To vote.

Another subject to which I desire to edit your attention at the present time is the carthent of a law which a shall give the soldiers, from this State row in the array the right to vete at the next general election. After our quota shall have been filled, we shall have about \$6.000 mee in the army of the Union. Among there, it is safe to presume there are at tens \$6.000 mee in the army of the Union. Among there, it is safe to presume there are at tens \$6.000 mee; in the army of the Union. Among there, it is safe to presume there are at tens \$6.000 mee; who creating have adden, if not a deeper interest in the welfare of the State and Union, and in the policy that stall guide their connects in their representative falls as those who have remained at home. The views of these brave and pariotic means hould have proper weight in shaping the desiring of our impermited country. Who votes must bear arms, was the fust decision and rule of the secretary of war; who bears arms should not be distranchised, but he permitted to vote, thould be the policy of the constry. There is nothing, I besieve, in our construction which would problet the enactment of earther these provides that "No person shall be termed to have lost his residence in this state by reason of his absence on husiness of the United States, or of this State." This we have inside the present of his absence on husiness of the United States, or of this State." Adoption of Important Reports. THE BOUNTY QUESTION UP AGAIN.

The Board was called to order at 10 o'clock a. m. The minutes of Thursday's proceedings were read by the clerk and approved. Prof. J. F. Eberhart, School Commissioner of Cook county, read a lengthy report to the Board.

Sup. Ginther offered a resolution providing for the printing of the report is pamphlet form, to be equally distributed in all the school districts of the county.

Sup. Jones offered a resolution as a substitute, referring the report to the School Committee, with instructions that said committee, no conjunction with the School Commissioner, prepare said report for publication, and secure the printing of not less than 3,000 copies. This resolution was adopted.

This resolution was adopted.

Sup. Corpell, of the committee on schools, presented a report, which contained a recommendation to pay the School Commissioner 8200 per quarter for his services. On motion, the report was adopted.

On motion, the bill of the School Commissioner for the last onertage amounting to 3195.

The collections of grapes are none of them large, but embrace many of the new sorts, such as Delaware, Hartford Prolific, Concord, Dhana and Rebecca. The first three are already favorite with all classes of people, for their vigor of growth, hardiness and good quality of fruit. The Delaware in quality stands at the head of the list, but is not equally viscous in all parts of the State.

The committee not having handed, in their report, we must defer it to another day. In the collection of A. H. Hovey is a cheese, or rather a four-bladed curd-knife. A young gentleman of decladed ability was enharging upon its value to several ladies, as a new bread knife, a labor saving institution capable sioner for the last quarter, amounting to \$195, was ordered to be paid. Sup. Jones effered a resolution relative to the regular annual mosting of the Assessors. Tabled.
Sup. Dalton called up some unfinished business, relating to executions placed in the hands of Coustable Keeler, some time ago. The matter was referred to the committee on indiciary, with instructions to report at the next meeting.

was heard during the day, in the direction Marpers' Ferry, Martinsburg, or Wil-

ceition extremely critical, and General White's, with his meagre force and im while their retreat westward, if they should nes of their position could preven their being speedily overpowered. The invasion of Pennsylvania seems to e no part of the rebel programme at

present, and the advance of McCiellan's army in the East renders it necessary for Gen. Lee to possess himself of the upper fords as speedily as possible, in order to ecure a safe return to Virginia through the Shenandoah Valley. Undoubtedly the firing heard yesterday betokens an engage-Col. Miles, to secure these crossings. We know that a gallant resistance will be made, but when we consider the limited number of troops on our side, and the formid-bl strength of the enemy, we are compelled to fear the most disastrous consequence Everything depends upon the celerity of Gen. McClellan's movements. Hooker's division reached Frederick on Thursday night, and McClellan himself arrived there on Friday. Harper's Ferry is only twentyty-five miles distant, and with reasonalle dilligence, our forces on the south bank of

the Potomac ought to be saved. We await further intelligence with anxiety. Fourth Congressional District.
The Republicans of the 4th congressional district, consisting of the counties of Adama, Hancock, Henderson, Mercer, Rock Island and Warren, net in convention at Monmouth on Thursday last, and on the 6th halot nominated the Hon. Charles B. Lawrence for Congress, he receiving one vote more than Hon. Jackson Grimshaw of Quiney.
On the first ballot Judge Lawrence received twenty-three votes, and Jackson Grimshaw

ceived thirty-four and a half votes, and was then unanimously nominated. Messra. Wilkinson and Atkinson were also candidates before the convention.

The delegates from Adams and Hancock supported Mr. Grimshaw most heartily, but ascented without a marmur to the will of the majority. Grimshaw is exceedingly popular where he is best known, and so is Judge Lawrence. They are both able and true men, and it would be as difficult for an outsider to choose between them as it was for the Republicans of their direct.

Mr. Lawrence is a resident of Warren country, and is the present judge of that circuit, we believe. He is a most excellent man, sound and true as steel, and will if elected, do know to the district and State. He can't be defeated upless the Republicans have sent 1,000 more soldiers to the field and all the war Democrate vote against him and for the Tory cardidate, which they will not do by considerable.
